

Summer Mathematics Packets

All students in grades 8-11 (except those who are enrolled in the semester courses of Accounting and Statistics) have been issued summer review mathematics packets that must be completed for the first day of classes in September. The material in the packet covers prerequisite concepts that the students have been taught in a previous course. All material will be reviewed in September followed by an assessment that will become a part of the student's first quarter average. The specifics for each assignment and required material needs for the fall have also been addressed in a welcome page included in the envelope.

Copies of all freshmen Algebra courses and non-honor packets can be found on the school website. All other packet copies are available at the high school through out the summer. If you have any questions please contact Mrs. Linda Horton, Mathematics Department Head at 508-336-7272 ext 317 or by email at Hortonl@seekonk.k12.ma.us.
